Industrial Revolution

1. The process of change that transformed Britain first and then other countries from agricultural to industrial economics.
2. These new machines required factories to house them, at first near rivers for water power and then, when the steam engine was invented (by James Watt in 1769), near coalfields.
3. England, an agricultural country was now turned into a manufacturing country. The production increased manifold. Things were available at cheaper rates. Improved methods of communication followed.
4. The economic progress and industrialisation of England influenced the social & cultural life of the people. It had far-reaching effects on the political history of England.
5. By 1850 the Industrial Revolution had penetrated into Belgium, France, Germany, Switzerland and USA.. By 1900 it had extended to Sweden, Italy, Russia, Japan & Argentina. Presently it is penetrating into China, India and Africa.
